

Catback Exhaust *for Mitsubishi EVO X (4B11)*

PRODUCT FEATURES

One of the latest releases from Tomioka Racing is the direct bolt-on cat-back exhaust system for the Mitsubishi Lancer Evolution X. It styles the dual-tip stock look, with 4-inch tip diameter, but improves horsepower, torque and overall performance. The cat-back is TIG welded and made up of 100% SUS304 material with fully polished finish. It has 3-inch piping throughout the entire cat-back system with 0.1-inch pipe wall thickness and 0.39-inch of quality flanges. The cat-back also comes with detachable silencers. Each cat-back is backed with 12-month manufacturer's warranty.

SPECIFICATIONS

Part Number	TR-CBM1000
Material	Stainless Steel SUS304
Application	Mitsubishi EVO X (4B11)
Model Year	2008 +
